Pro-Twist Construction Fasteners are engineered for professional-grade use in commercial, industrial, and residential applications. Whether the job involves drywall, steel framing, electrical or plumbing work, or plastering, Pro-Twist has the optimal fastener for every situation.

Each Pro-Twist fastener is manufactured with a higher-than-normal 1022 carbon content for sharper, stronger points, and incorporates a unique thread design that significantly improves penetration speed.

CWALLA IS YOUR SOURCE FOR PRO-TWIST FASTENERS.
